SUMMARY

Innovative AI/ML enthusiast eager to apply foundational skills in machine learning and data engineering. Successfully engineered comprehensive end-to-end ML pipelines, significantly boosting project workflow efficiency. Seeking to leverage technical acumen and problem-solving abilities in a dynamic AI/ML position, driving impactful projects through strategic data-driven solutions.

EXPERIENCE

AI/ML INTERN

Labmentix

July 2025 - Present, Bengaluru

- Engineered end-to-end machine learning pipelines, integrating data ingestion, feature engineering, model selection, evaluation, and deployment components to enhance project workflow efficiency.

PYTHON INTERN

Acmegrade

January 2025 - February 2025, Bengaluru

- Assisted in designing and automating data processing workflows using Python to support enterprise resource planning and accounting solution modules.

PROJECT

Customer Support Ticket Classification using Machine Learning

Labmentix • colab.research.google.com/drive/1scQdMx19K13bjVR6P5lID18KcWWnsL9N?usp=sharing

- Built a multi-class text classification model to categorize customer complaints such as Returns, Feedback, and Cancellation.
- Preprocessed text data using regular expressions and applied TF-IDF vectorization with n-gram range (1, 3).
- Filtered out low-frequency categories and performed stratified train-test split to handle class imbalance.
- Trained a Random Forest Classifier using Scikit-learn and evaluated the model with accuracy and classification reports.
- Achieved an accuracy of 52%.

Brain Tumor Classification AI Tool

Labmentix • drive.google.com/file/d/1uc7tXqXUDwOHVpXJ8guG2dYJlFAshWg/view?usp=drive_link

- Developed a deep learning model to classify brain MRI images using both custom CNN and MobileNetV2.
- Processed and augmented 3,000+ MRI scans to enhance model accuracy.
- Achieved over 89% accuracy with transfer learning (MobileNetV2).
- Created an interactive Streamlit web app for real-time tumor prediction.
- Deployed a standalone offline (EXE) version for ease of use.
- Documented the entire project with clean code, model comparison, and a detailed README.

Food Waste Management System

Labmentix • drive.google.com/file/d/1-3G35bMzXvl8LrOis3l_SpmG6RP7_ogu/view?usp=drive_link • August 2025 - August 2025

- Built a digital platform to track, manage, and reduce food wastage in households/restaurants.
- Developed modules for donation tracking, user notifications, and food redistribution.
- Applied data analytics to predict wastage trends and optimize food usage.
- Collaborated with peers to design a user-friendly interface and database system.

EDUCATION

Masters in Computer Application

Minor in Artificial intelligence and Machine learning • D.Y.PATIL UNIVERSITY • TALEGAO,PUNE • 2026

- Tools Used: Google Colab, Visual Studio Code, Canva, Zoom, GitHub .
- Availability: Open to work and paid opportunities in AI/ML or Python development .
- Interests: Artificial Intelligence, Creative Problem-Solving .
- Languages: English (Fluent), Hindi (Fluent), Marathi (Native) .

Bachelors of Zoology

Minor in Zoology • Sir Parashurambhau College • Pune • 2024

CERTIFICATIONS

AGILE PROGRAMMING MANAGEMENT

HP LIFE • 2025

- Learned agile development principles including Scrum and Kanban methodologies.
- Understood iterative vs. incremental development and how to build minimum viable products (MVPs).
- Developed skills to manage AI/ML and software projects effectively using agile workflows.

DATA ANALYTICS JOB STIMULATION

DELOITTE VIA FORAGE • 2025

- This certificate validates your hands-on experience in:
- Data analysis
- Forensic technology it demonstrates your practical understanding of analytical tools and investigative techniques relevant to corporate environments, especially in identifying trends, anomalies, and insights from data.

TATA – GENAI POWERED DATA ANALYTICS JOB SIMULATION

TATA VIA FORAGE • 2025

- This certification shows your ability to apply Artificial Intelligence in data analytics, with real-world simulations in:
- Exploratory data analysis and risk profiling
- AI-based delinquency prediction
- Business reporting and storytelling
- Implementing AI-driven strategies. . It highlights your readiness to solve business problems using data science and GenAI tools.

CERTIFICATION OF COMPLETION

FREEDOM WITH AI • 2024

- Gained insight into real-world AI tools and applications for automation and content generation.
- Learned how to use AI to enhance productivity, business, and creativity without coding.
- Complements technical AI/ML knowledge with practical, real-life AI use cases.

ARTIFICIAL INTELLIGENCE

Reliance Foundation Skilling Academy • 2024

- Completed foundational training in AI concepts including intelligent systems, real-world applications, and ethical use of AI.
- Supports hands-on project experience in AI/ML with Python and Scikit-learn..

Artificial Intelligence – Skill India Certification

Reliance Foundation Skilling Academy Through Skill India Digital (NSDC) • 2024

- Completed a government-recognized skilling course on AI fundamentals, practical use cases, and ethical frameworks.
- Strengthened theoretical base to support hands-on internship and ML projects.

SKILLS

AI & Machine Learning | Data Science | AI Development | Generative AI | Data Analytics | Tableau | Agile Project Management | Python | Scikit-learn | Data Visualization | Predictive Modeling | Automation Tools | Problem Solving
